Homework: report on a paper

Trustworthy AI - Lecturer: Emanuela Raffinetti; Python instructor: Alex Gramegna
E-mail: emanuela.raffinetti@unipv.it; alex.gramegna01@universitadipavia.it

Paper: Giudici P., Raffinetti E.: Explainable AI methods in cyber risk management, Quality and Reliability Engineering International, 38(3), pp 1318-1326 (2022).

To do:

- read the paper;

- try to understand the main contents;

- reflect on the possible use of the proposal described in the paper;

- provide a brief report illustrating a case study in healthcare management which can be faced by the use of the main approaches illustrated along the paper.
